Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 4-5, 8-9, 11, 14-15, 18, the prior art fails to teach or suggest a method for a probe to negotiate a common mode of communication between two nodes, comprising "controlling a plurality of switches between physical layer interfaces and repeaters using a finite state machine to establish a third communication path coupling the first and second communication paths to provide a negotiated common mode of operation between the first node and the second node," in combination with other limitations, as specified in the independent claims 1, 9, 11.

Regarding claims 19-23, the prior art fails to teach or suggest a method for a probe to negotiate a common mode of communication between two nodes, comprising "a finite state machine coupled to the physical layer interfaces to control the plurality of switches to establish a third communication path coupling the first and second communication paths through the physical layer interfaces and at least one of the repeaters, the third communication path providing a negotiated common mode of operation between the first node and the second node," in combination with other limitations, as specified in the independent claim 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
